

I listen to XM Radio while commuting along the coast to San Francisco. I cannot get AM/FM radio for a good distance along the coast and therefore rely on the XM traffic report for the Bay Area. I think it is ridiculous that those of us who live in remote areas should be denied access to traffic reports by a group of commercial enterprises who already own most of the airwaves. Please allow satellite radio to compete fairly. I urge you to vote no on Petition 04-160. Thank you for being fair.

Sincerely,

Laurie Mack
